“ *I was a classmate of Evelyn's in high school. Evelyn and I were close friends in high school because of our mutual love for sports. When I learned that she had cancer, I was told it was too late for me to communicate with her. Even though I had not seen her since 2000, my heart is very heavy for the loss of someone who was a dear, dear friend.*

*Her son and grandchildren do not know me, but her mother-in-law, Mitzi, does. My regards and prayers for all of you.*
