“ *Just wanted to drop a note and let you all know what a beautiful service you provided for your Mother. The flowers and outfit was gorgeous every little detail was touched with your love. The music was very peaceful, the memorial of her life was very touching, I learned alot I never knew of her life. This beautiful passage was a demonstration of your love you all had for her. As I stood there praying for her I imagined what a sight in Heaven it was to find her brothers and sisters waiting for her! Please all take care of yourselves and rejoice in having such fond memories of your life with a wonderful Mother.*
